# Enjoy our wide range of interconnected features

Among many other things, you can set the dashboard to display priority HR tasks as soon as you log in.

### Employee schedule management at your fingertips

#### Collaborating with peace of mind

By always being aware of **which employee** is available at **what date and time**, you won't risk being understaffed anymore.

The HRM module allows you to **check schedules for any employee or service at all times**. Not only will you be able to **create teams** and save time when setting up work schedules, but also **assign tasks** to employees and better organise their shifts.

# All the HR tools you need at one single place

BlooBiz spares you the hassle of staff management, so you can focus entirely on your business activity.

- Sollow-up of work shifts, tasks, leave...
- Paid leave management for each employee in the current year
- Stats on the number of absences for each employee

#### Follow-up of working hours

The 'Timesheet' module allows for tracking the time spent by your employees on a specific task or project, as well as overtime and even project profitability!

## Stay on top of your projects

Keeping every step under your control

#### Concept

Perfectly structured projects with tasks and to-do lists, categories, statuses and more

For each project, you can customise statuses, task types and even roles

The completion rate allows you to check the progress of each project

You can also create progress and activity reports for project assessment

The project history lets you keep track of all completed tasks

Ongoing tasks are displayed on schedules so that you can monitor their evolution
